

COMS 4111 Intro to DB Project 1 Part 3

Eric Boxer (ecb2198) Zhongling Jiang (zj2249)

April 17, 2019

URL to access application: <http://35.227.85.208:8111/>

Sample credentials for users of type User and type Employee:

(User) Username: admin Password: password

(Employee) Username: adminemp Password: password

Additional credentials are stored in our database, in the table **users**.

Link to GitHub repo containing codebase: <https://github.com/Ecboxer/project1-s19>

Changes made to the schema since Part 2:

For the insertion of new locations and users, we altered the data type of location and user ids, from int to serial.

The sql script used to alter the schema is found in the Github Repo in the file

https://github.com/Ecboxer/project1-s19/blob/master/setup_serial.sql.
